Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 78, 74–1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money

order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

NOTES OF GENERAL INTEREST

NEW GOVERNMENT AGENCIES AND CHANGES IN FORMER ORGANIZATIONS

Several new Government agencies have been created by recent acts of Congress, among them being a new National Labor Relations Board, which was authorized by Public no. 198, 74th Congress, approved July 5, 1935. This Board is to replace the National Labor Relations Board established by Executive Order 6763 on June 29, 1934, its purpose being to diminish the causes of labor disputes burdening or obstructing interstate and foreign commerce.

Public no. 201, 74th Congress, approved July 10, 1935, established a National Park Trust Fund Board, to consist of the Secretary of the Treasury, the Secretary of the Interior, the director of the National Park Service, and two persons appointed by the President. The Board is authorized to accept, receive, hold, and administer such gifts or bequests of personal property for the benefit of, or in connection with, the National Park Service, its activities, or its service, as may be approved by the Board.

A Central Statistical Committee and a Central Statistical Board were created by Public no. 219, 74th Congress, approved July 25, 1935, to plan and promote the improvement, development, and coordination of, and the elimination of duplication in, statistical services carried on by or subject to the supervision of the Federal Government, and, so far as may be practicable, of other statistical services in the United States. The Central Statistical Board created by Executive Order 6225, dated July 27, 1933, as amended, shall cease to exist at such time as the Central Statistical Committee shall declare that seven members have qualified for membership in the Board.

The National Labor Relations Board, which was continued in existence by Executive Order 7074 of June 15, 1935, as amended by Executive Order 7090 of June 29, 1935, has been further extended to September 1, 1935, by Executive Order 7121, dated July 31, 1935.

NEW PERIODICALS

The recently established Soil Conservation Service of the Department of Agriculture has begun publication of an official periodical entitled "Soil Conservation", which is to be issued monthly beginning with August 1935. Its purpose is to supply to workers and cooperators of the Department of Agriculture engaged in soil conservation activities, information of especial help to them in the performance of their duties, and is issued to them free by law. Others may obtain copies from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 10 cents a copy, or by subscription at the rate of $1 per year domestic, $1.40 foreign.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

SOIL CONSERVATION SERVICE

Note.—The Soil Conservation Service was established by the Secretary of Agriculture under the provisions of H. R. 7054, 74th Congress (Public 46, approved Apr. 27, 1935), an act to provide for protection of land resources against soil erosion.

The Soil Conservation Service includes the former Soil Erosion Service, which was transferred from the Interior Department to the Agriculture Department on Mar. 25, 1935, and later made a part of the newly established Soil Conservation Service.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to $5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see below.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska and Hawaii. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding, approximately, to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 46 percent of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Twenty-four of the topographic maps covering areas in New Jersey are out of print, the Survey not reprinting the maps as the stocks become exhausted but referring applicants to the Department of Conservation and Development, at Trenton, which publishes maps on a larger scale. Maps of the regular size are sold by the Geo-

logical Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to $5.00 at the retail price. The discount is allowed on an order for either maps or folios alone, or for maps and folios together.

NOTE.—The Reclamation era is a magazine for the farmers and the personnel of the bureau. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. The subscrip ion price of the Reclamation era is 75c. a year to other than water users; foreign subscription, $1.05, payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., and remittance in the form of postal money order or New York draft should be made payable to the Bureau of Reclamation. Postage stamps are not acceptable in payment of subscription.

TOPOGRAPHY DIVISION

Note.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,470 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps had not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by Post Office money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1935, page 194.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational

establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals.* A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (nos. 79 and 81 of which are listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

FINANCE DEPARTMENT

Finance circulars. ‡

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property and contract auditors. Though bearing a date, they are issued in a single lettered series without regard to calendar year, each to contain subject matter of related character. Each circular is designated by a letter and is published in a numbered series of separate pamphlets classified according to subject matter. Changes to Finance circulars are published in a single numerical series, applicable to all pamphlets, without regard to calendar year. When any portion of a numbered Finance circular has been embodied in a lettered circular, that portion of the numbered circular will be rescinded.
